Continuation of Substance of Interview including description of the general nature of what was discussed: The examiner contacted Ms Amick to discuss amendments to place the claims in condition for allowance. The Mullis reference teaches NTP concentration of 1.5mmol/l and the claims, as submitted, recite concentration of "about" 2 to 200mmol/l. The examiner stated that deleting "about" would overcome the teaching of Mullis. Ms. Amick agreed to the amendments. .
